

FOR IMMEDIATE RELEASE

## Justin DeBoer Appointed Director of Petroleum & Gas for Windy City Wire

**Bolingbrook, IL – May 26, 2026** – Windy City Wire is thrilled to announce the promotion of Justin DeBoer to the position of Director of Petroleum & Gas, effective immediately. As Justin has built his career over the past 10 year with the company, he's dedicated himself to truly understanding not just our product offering, but how we can most effectively meet our customer's needs. We're excited to support Justin in his continued development as he works to drive greater impact and growth in the petroleum sector.

### Thoughts from Bill Stang – Chief Sales Officer at Windy City Wire

"I've had the privilege of watching Justin grow since he joined Windy City Wire in March of 2016, and while he has always been a steady presence, the past few years have been something else entirely. He has emerged as the undisputed leader in the clubhouse on the Petroleum side ... owning the market, earning the trust of his peers, and commanding the respect of the industry. What started as potential has turned into performance, and this promotion is the natural next step for someone who has already been operating at this level.

Justin's dedication, selflessness, and forward-thinking approach make him the perfect person to lead this growing vertical. In this role, he will continue to own the go-to-market strategy for the Petroleum & Gas space, build & grow relationships, drive innovation, and work alongside colleagues, customers, and industry leaders to make sure everyone around him is in a position to win.

I couldn't be more proud or more confident in this decision. Justin has earned every bit of it."

### Statement of congratulations from Dan Hughes – President at Windy City Wire

"Today we are excited to congratulate Justin DeBoer on his promotion to Director of Petroleum & Gas at Windy City Wire. Justin's journey is a great example of what hard work, development, commitment, and results can create over time. Since joining us right out of North Central College, he has continued to grow both personally and professionally, earning the respect of teammates, customers, and partners along the way. This promotion is a direct reflection of the effort Justin has put in year after year. He has embraced challenges, developed his leadership skills, and consistently delivered results that have helped strengthen our business and position in the market. We are proud of what Justin has accomplished and are excited to watch him continue to lead and grow our Petroleum & Gas business into the future. Congratulations Justin, well deserved!"

### Thoughts from Justin DeBoer on being promoted to Director of Petroleum & Gas at Windy City Wire

"When I look back over the last ten years of my life, spent mostly here at Windy City Wire, the one word I keep coming back to is ... gratitude.

As with any journey, there have been both ups and downs. But through it all, you learn to manage the challenges, keep moving forward day by day, and always do your best to learn from past experiences.

Being promoted to Director of Petroleum & Gas at Windy City Wire holds significant weight for me, and I am incredibly proud to step into this role. My passion for connecting with people has truly bled into my love for this market. Every single day, I find genuine purpose in the day-to-day work, the partnerships we build, and the future we are shaping in this industry.

I have learned so much from my team here at Windy City Wire, and specifically from a special mentor of mine, our late colleague Kimberly DePaola. Without Kim, this market for Windy City Wire simply wouldn't exist. Following in her footsteps and watching her show up every day with unmatched dedication, drive, and discipline, guided me to where I am today. I am deeply honored to carry on her legacy day in and day out.

A director not only invests time and effort into their market but also leads by example for the generations to come. I look forward to being a true asset to this industry, and an even greater leader for my team.

Thank you, Windy City Wire, for helping me become the man I am today. I am truly grateful.”
