

Windy City Wire Named a 2026 PSA Network P3 Elite Partner

Windy City Wire is proud to announce that we have once again been recognized as a [**PSA Network P3 Elite Partner for 2026**](#), reinforcing our longstanding partnership with the PSA Network and our continued commitment to delivering exceptional value to our customers.

The PSA Network—the world's largest consortium of professional security and AV systems integrators—recently unveiled its 2026 P3 (PSA Partner Program) Partners, recognizing technology manufacturers that demonstrate outstanding performance, collaboration, and impact within the PSA community.

What the PSA P3 Elite Designation Means

The PSA Partner Program is a performance-driven initiative that evaluates technology partners based on annual sales thresholds, engagement, and overall contributions to the network. Partners are placed into **Elite** or **Platinum** tiers using a weighted scoring system designed to recognize excellence and leadership across the industry.

For 2026, **Windy City Wire** is honored to be named among a select group of **P3 Elite Partners**, a distinction that reflects our strong collaboration with PSA integrators and our continued investment in solutions that help them succeed.

A Partnership That Delivers Real Value

P3 partnerships are designed to help PSA integrators enhance their offerings, stay competitive, and deliver greater value to end users. Through this program, PSA members gain access to exclusive training, certification opportunities, and deeper collaboration with trusted technology partners.

As a P3 Elite Partner, **Windy City Wire** works closely with PSA and its integrator members to provide:

- High-quality, labor-saving low-voltage wire solutions
- Education and product expertise that support efficient installations
- A reliable supply chain backed by industry-leading customer service

“Working alongside these partners helps our members stay ahead with the latest solutions and deliver even more value to their customers,” said Matt Barnette, president and CEO of the PSA Network

Commitment to Our Customers

Our continued recognition as a PSA P3 Elite Partner underscores Windy City Wire’s commitment to innovation, collaboration, and customer success. By maintaining strong relationships within the PSA Network, we’re able to stay closely aligned with the needs of systems integrators and deliver products and services that help projects run smoother, faster, and more profitably.

We’re honored to stand alongside other leading manufacturers in the PSA Network and look forward to another year of partnership that helps elevate the security and AV industries.
