

# North American-owned manufacturer of RF telecom equipment

## ABOUT COMPROD

Comprod Inc., was founded in 1975, as a Canadian-owned and family-operated manufacturer of RF telecom equipment with products manufactured exclusively in Canada and the United States. For over 47 years, the company has been committed to producing the highest quality antennas and filtering equipment in the market to ensure the deployment of reliable and durable communications networks. Today, Comprod is proud to continue supplying telecom equipment to Federal, Provincial, Municipal and para-governmental agencies across North America and we take great pride in having a small part in keeping populations safe for the last almost 5 decades.

Comprod's longstanding commitment to high quality materials and craftsmanship make our standard and custom engineered products second to none for performance quality and low lifetime cost of ownership, backed by the best guarantee in the industry.
