LOG PERIODIC 580-6000 MHz

Specifications	946-70-NF
Frequency Band:	580-6000 MHz
Gain:	8-9 dBd
Impedance:	50 Ohm
Intermodulation IM3 2 carrier, 20 W each:	-150 dBc
Power:	300 Watts at lowest frequency, 150 Watts at highest frequency
Front to back Ratio:	25 dB Typical
Half power Horizontal Beamwidth (V Pol):	60 degrees Typical
Half power Vertical Beamwidth (V Pol):	45 degrees Typical
Connector:	N-Female. DIN 7/16 and 4.3-10 connector available upon request
Max wind Velocity:	240 Km/h (150 mph)
Dimensions:	30" x 13" x 3"
