TRANSACTIONS

The RackPack Field Systems Solution is designed to increase your efficiencies at every stage of the cable process. From concept to completion we have you covered with the products and value-added benefits.

WHERE WE STARTED

Established in 1994 as a wire and cable distributor specializing in low-voltage cable for the building automation and temperature control market, today we are the standard by which all other low-voltage wire and cable suppliers are measured. Our philosophy of investing, innovating and putting the integrator first has propelled the company from a small warehouse space servicing a single market segment, into manufacturing and distribution.

Producing goods and services for all the major low-voltage markets and systems. Our corporate facility in Bolingbrook, Illinois is the heart of our organization, with additional locations nationwide.

AMERICAN MANUFACTURED

- All SmartWire® products are *Manufactured and Assembled in the USA*:
 - All insulation and jacketing compounds
 - Aluminum mylar shields
 - Water Warrior® water blocking tape
 - RackPacks and their components
 - RackPack Transporting devices
- Certificates of Origin available upon request
- All Components are 100% recyclable

OUR MANUFACTURING CAPABILITIES

- UL Approvals – Compound approvals for various applications
- Low-smoke PVC
- CMP, FPLP, FPLR, CMR, CL3R, CL3P, 600 volt rating for THHN (PVC/Nylon), Direct Burial/VNQ/Water Warrior cables, Approval for FEP inners in-house for up to 3 conductors in a low-smoke PVC Jacket, 150° C rating on Local Law 5 Fire Alarm, MC capabilities

OUTSIDE PARTNERS

- PE, FEP inners, FEP jackets, LSZH jackets, LSZH inners, high temperature up to 200° F, low temperature down to -75° F
- Category Cable 5, 6, 6A, and 7, Non-Shielded and Shielded
- Fiber Optic Cable, Burial, Armored, Multi-Mode, Single-Mode

SMARTWIRE'S EXCLUSIVE FEATURES

- Created, designed and available exclusively from Windy City Wire
- Reduce the time spent to: pull, isolate, identify, label and terminate
- Ascending/Descending Sequential Foot Markers, Alphanumeric Coding System
- SmartWire colors/stripes, Rip Cord and SmartWire Glide

FastFIND Footage Markers

- All SmartWire cables have Ascending/Descending Sequential Foot Markers
- Now with Fast Find Footage Markers for improved visibility
- Ensure 1,000' ship quantities
- Always know remaining cable quantities in your RackPack
- Easy calculation of point-to-point length
- Proper utilization reduces indiscriminate product waste by 15-25%
- More cable utilized from every box
- Supplement shorter runs on other jobs and service calls with the cable you don't scrap

■ 0275/0725 FT ●

End 1: First checkpoint in determining the installed length.

■ 0650/0350 FT ●

End 2: Second checkpoint. The installed length of this cable is 375 ft.

SmartWire Glide

- Reduces pulling friction up to 70%
- Low viscosity as it coats and clings to the entire cable jacket
- All stock SmartWire cables come standard with Glide lubrication at no additional cost

Jacket Color Options

- SmartWire is renowned for its incredible options of multiple jacket colors and stripes with standard and custom color combinations.
- Plus, you can order custom jacket colors and stripe colors to easily identify your jobs

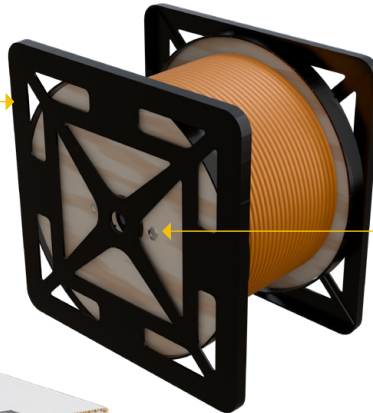

COLORS & STRIPES

RACKPACK FEATURES AND BENEFITS

Our patented RackPack® box is used by integrators nationwide, pulling over 750 million linear feet yearly. The RackPacks free-spinning reel-in-the-box design delivers superior cable pulls with enhanced efficiency and safety, while providing a uniform, compact design that simplifies staging, storing, and pulling cable.

HEAVY DUTY END CAPS

- Completely encapsulates the reel
- Prevents snags, knots, and tangles
- Ensures smooth consistent pulls

SOLID WOODEN SPOOLS

- Add to stability of the RackPacks
- Holds up under harsh working environments
- Does not crack or break like plastic

PATENTED CONSTRUCTION

- Designed for horizontal and vertical pulling
- Reinforced top payout can act as a handle
- Extremely durable and stackable

DUAL HANDLES

- Large, reinforced openings for easy use
- Ergonomic for proper lifting of boxes
- Improves safety and efficiency

SIDE HOLE

- Allows the linking of multiple RackPacks
- Secures RackPacks to our Transportation Devices
- Creates additional mass ensuring smooth pulls

[CLICK HERE TO SUBMIT YOUR LOGO FROM OUR HOME PAGE](#)

CUSTOM PRINTED

- Customer logo or WCW logo standard
- Job number or Purchase order number
- Item number and complete description
- Weight per 1,000' and O.D.
- Total number of RackPacks ordered
- Customizable Application and Device Fields
- Notes area for customer entered project info

AWG & COLOR ID

- Identifies a products' AWG size
- Displays jacket and/or stripe color
- Large and easy to read at-a-glance

CONDUCTOR ID & QR CODE

- Identifies the number of conductors
- Offers cable construction details
- Scan QR Code for product info, link to spec sheet or to add to cart

THE RACKPACK FIELD SYSTEMS SOLUTION

Increase your job site safety • Efficient method of moving material • Mount and secure your RackPacks for superior cable pulls

RACKSTAK®

- Durable, lightweight, collapsible
- Mount, move, pull 6,000+ feet*
- Easily maneuvers up/down stairs
- Versatile installation usage

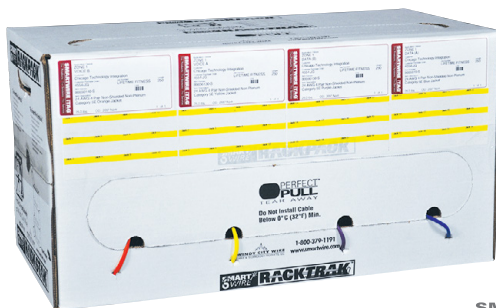

RACKTRAK®

- Durable, lightweight, collapsible
- Mount, move, pull 12,000+ feet*
- Versatile installation usage

GRAB-N-GO™

- Compact, lightweight, hand-held
- Mount, move, pull up to 6,000 feet*
- Small scale installation usage
- Ideal for service work

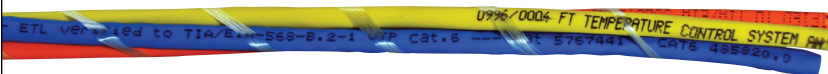

MEGAPACK™

- Accommodates up to 6 spools
- Custom cable combinations
- Works on all transporters

SMARTWIRE GLIDE

- Reduces pulling friction by up to 70%
- Low viscosity coats the cable
- Standard on ALL stock SmartWire cables
- No additional cost

SKIP WRAP

- Any application
- Custom combinations
- Uniform wire set ups/pulls
- Increases productivity

REPACK2RACKPACK

The team here at Windy City Wire is so confident in the value our solution offers, we are willing to let you try it for free. That's right, test our RackPack Field Systems Solution head-to-head with the system you are currently using and realize the benefits for yourself. If you are new to Windy City Wire and ready to experience the difference we bring to the industry, then you are ready for the **RePack2RackPack** challenge!

1 TAKE THE RP2RP CHALLENGE!

- Pack up some of your current stock
- Ship to our closest WCW warehouse
- We will re-pack into our **patented** RackPack boxes
- Label with critical product information
- And deliver all materials back to you

Restrictions apply:

- Windy City Wire products **cannot be re-packed**
- Obsolete cables **cannot be re-packed**
- Cables less than 500 feet **cannot be re-packed**
- **MAXIMUM:** 1-2 skids for re-packs

2 ANALYZE

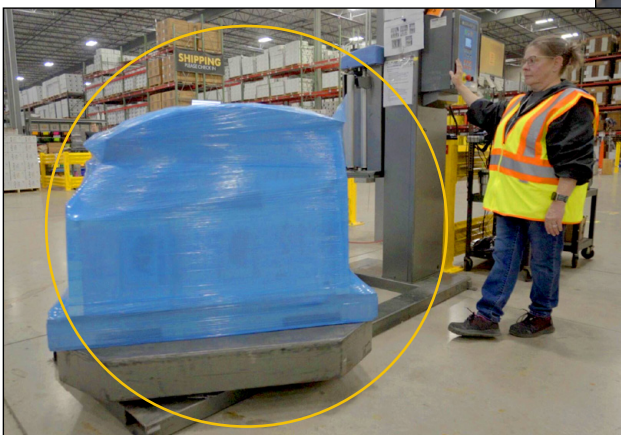

You and your team put our solution to the test in the field, compare this to the products and techniques you're currently using.

3 REALIZE

Your team will experience the difference... the ease of moving and pulling cable with a streamlined workflow. While enjoying increased productivity and safety while reducing labor costs on every project!

4 WIN! WIN!

Enjoy all the benefits with absolutely no risk. All at no expense.

CUSTOMER FEEDBACK

"I have the RackTrak and the RackTrak Stretch. I just pulled 37 cables and it was about 10 TIMES EASIER than pulling from boxes on the floor or reels on triangles. This is the ticket." See photos below.

– Jason Gates

"...Their RackPack Field Systems Solution is unbeatable with **convenience and efficiency**. Our **production levels have increased** just from the using The RackStak. They are constantly growing and taking on new product lines like the electrical supplies that now make them a one stop shop for all of our installation needs, including their **new warehouse location across town that increases significantly the turnaround time for deliveries!** They are absolutely a pleasure to work with. I recommend Windy City Wire to everyone for any wire and electrical needs!"

– Molly J. Davis, Purchasing – Wilson Fire Equipment

"... **our labor cost will definitely go down because of the effortless moving** and dispensing of the wire or cable. It's great, no more tangles, knots or over spooling of the wire and it **can actually be installed with just 1 person**, you do not need a second person feeding the wire...."

– Lloyd Christopher – C. Davis Electric Co. Inc., Fire Alarm Division

"...The complete RackPack solution has been a huge benefit to our company. This **system has saved us time and money** with the wide variety of transporters that can be used for many different situations. All the options with striping and labeling are huge benefits that have allowed us to standardize all of our installs and allow easy identification. The cable they provide has always been superior to the competition and **my field guys won't accept anything else. ...**"

– Keegan – Capital Electric

"... Using cable from a RackPack allows our technicians to easily mobilize on the job site as well as **prevents cable tangles and snags**. With their huge offering of cable support and management products, Windy City Wire is becoming a **one stop shop for our low voltage systems installation department.**"

– Kevin Lang, Installation Manager – Critical System Solutions, LLC

HOW THIS ALL BENEFITS END USERS

- Safety and efficiency on the job site
- Quality and Consistency: product and packaging
- Custom print and custom colors available per request
- Made in the USA
- Stocking and staging capabilities
- WCW delivery services and messenger services capabilities

WINDY CITY WIRE BEST PRACTICES

- You will receive a personal account representative to assist you in every aspect of the ordering process. Our team will help you make cost effective choices and ensure the correct use of all of products, saving you time and money.
- We will help design, implement and then train you on the “SmartWire” cabling scheme.
- Access to our online portal to place and track orders, view frequently purchased devices, check current inventory levels, review and order projects quoted, get account and payment status plus much more.

We look forward to working with your team and showing you **The Windy City Wire Difference** in everything that we do.
